

ECOURSE TUTORIAL

WELCOME

Welcome to Pegasus Lectures eCourse education series. Developed to provide affordable access to state-of-the-art educational programs, this series brings expert faculty directly into your home. Online learning has grown exponentially as participants realize considerable savings by eliminating travel and lodging costs. More importantly, learning in modular increments with the ability to review lectures has been shown to substantially increase concept retention.

The Pegasus Direct delivery platform was developed with innovative features which allow you to customize our series to meet your specific work and family demands. By integrating best practices for online learning, you can maximize your limited study time. Features include 24/7 viewing, dual video streaming, interactive questions, viewable playlist, modular delivery, customized review, note-taking, eCourse materials, and CME. These unique features create an innovative, dynamic presentation allowing for active participation in the course to facilitate learning and concept retention. Pegasus Direct offers a convenient, flexible and effective method to prepare for your registry, cross-train, or learn a new scanning technique. Thank you for choosing Pegasus Lectures for your educational needs.

LOGIN

To access your eCourse, please visit our website at www.pegasuslectures.com and log into your My Pegasus Account with your email address and password (Figure 1).

If you ordered online, you created your password when you set up your account on the website. If you ordered by phone, your password is your first and last initials (lower case) and the numbers 1234 (example: cd1234).

After the initial login you can change your password, if desired. *The email and password are case sensitive.*

Figure 1

MY PEGASUS

My Pegasus is a convenient, one-stop portal for all of your digital content. To access your eCourse, click on the eCourses/Media Center panel (Figure 2).

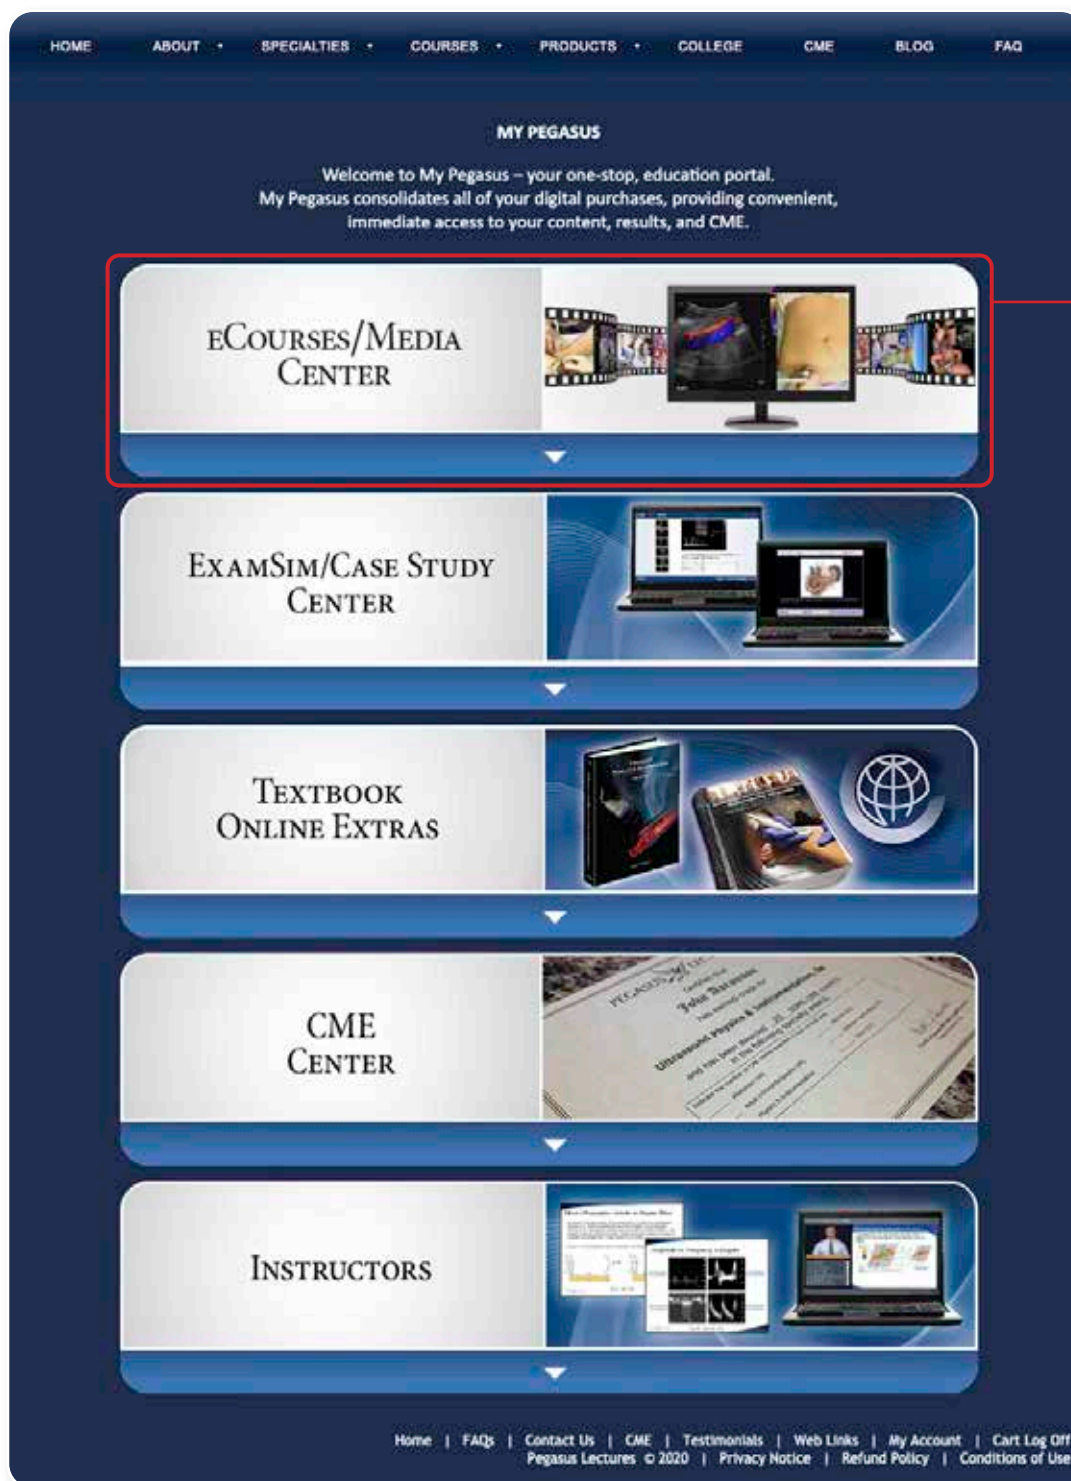

Figure 2

COURSE SELECTION

Scroll to the section with your desired eCourse. Select the **eCourse Information** icon for additional course details or select the course section icon to begin your course (Figure 3).

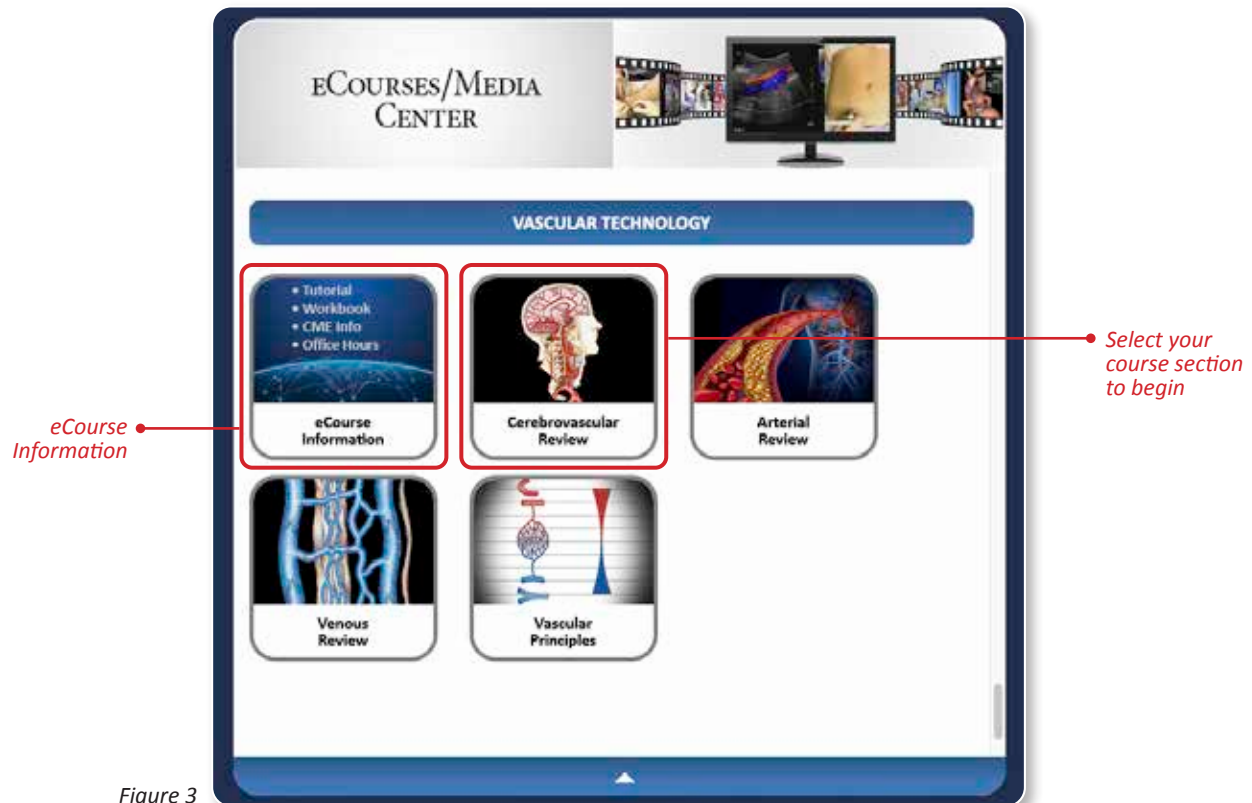

Figure 3

By clicking on the down arrow of the course section, the status of your modules within that section are displayed. Under the **Details** column, the title of each module is listed. The **Module Length** indicates the length of viewing time. The **Remaining Time** column indicates the remaining viewing time plus the review time. **Last Viewed** recalls the date and time of your last viewing. Simply hover over the module you wish to view and click when you are ready to view (Figure 4). The CME column indicates the status of the CME post-test per module.

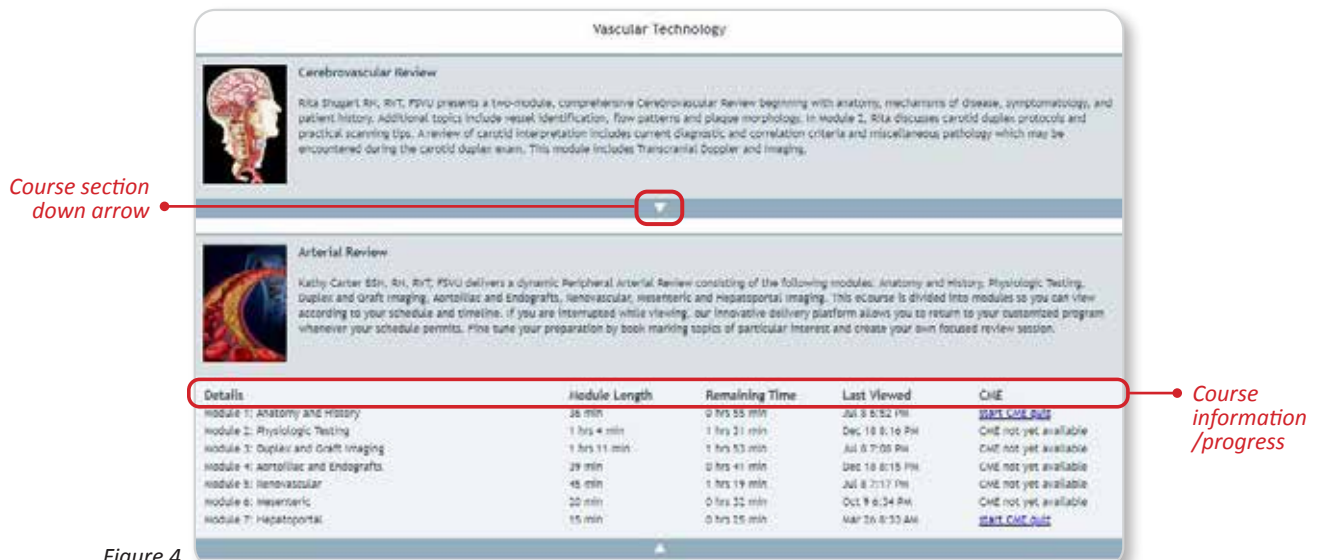

Figure 4

After you have viewed the module in its entirety, a CME prompt will become active. If you wish to wait to access the CME post-test, you can return to your Account Summary at your convenience and click on the CME link to begin your CME test. Remember, the *CME link will only become active after you have viewed the entire module* (Figure 5).

After completing the CME test, your results will be detailed in the CME Center (see CME Center on page 7 for details).

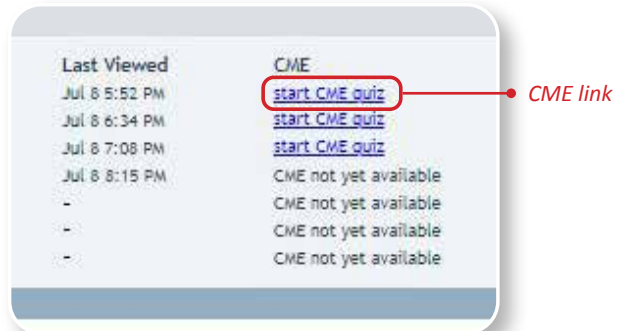

Figure 5

CONTROL BAR

The **Control Bar** (Figure 6) will appear at the bottom of the viewing screen with movement of your mouse. The **Full Screen** icon allows you to choose between the **standard viewing** (Figure 7) and **full screen** viewing modes (Figure 8). In standard viewing mode, the playlist will default to the lower left corner.

Figure 6 – Control Bar

Figure 7 – Standard View

Note-taking
feature

The integrated note-taking feature is active in the standard view.

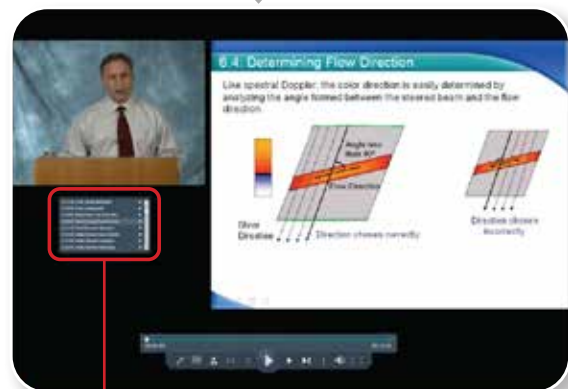

Figure 8 – Full Screen View

Playlist

In Full Screen mode, the playlist can be moved by grabbing the top of the playlist and moving it to the position of your choice.

To exit full screen viewing, press the **Escape** key.

The **Progress Indicator** shows movement through the module with both a green color and time code indicating the **Viewed Time**. On either side of the **Play/Pause** button, **Forward** and **Rewind** buttons allow navigation in +/- 5 second increments. Click the **Next Bookmark** button to proceed to the next segment or **Previous Bookmark** to reverse to the last segment. The control bar also displays the **Module Length**.

Additional controls include:

- ‘**Playlist**’ icon: click to view the details of each segment within the module
- ‘**Key**’ icon: provides access to key documents, including printable PPTs, if applicable to your course
- ‘**Speaker Bio**’ icon: click to view the presenter's biography
- ‘**View/Review Time Length**’ icon: this center button activates Play/Pause
- ‘**Volume**’ icon: click to control the audio volume
- ‘**Full Screen**’ icon: click to enter full-screen mode; use the Escape key to exit this mode

*Note: If you are unable to see the Control Bar on your screen while viewing the modules, please refer to the **Technical Tips** section on page 8.*

CREATING A REVIEW SECTION

To enhance your learning experience we have added a unique feature to Pegasus Direct; the ability to create a customized review session. To view the playlist, click on the **Playlist** icon (Figure 9). The **Playlist** (Figure 10) displays the time code and topic for each segment within the module.

As you identify areas of weakness while viewing the eCourse or want to note topics of particular interest, simply click on the **R** to bookmark that segment for review. Pegasus Direct will recall the sections you have bookmarked, creating a customized review session for later viewing.

Figure 10 – Playlist

During the review, use the playlist to navigate through the bookmarked topics. You will also be able to access unmarked segments during the review period. For each module, you are given 75% of the initial viewing time for review (i.e. for a two hour module you are given an additional 1.5 hours of review). Your remaining review time will be displayed on both the Account Summary and the Control Bar.

VIEWING TIME

There is no expiration date on the eCourse. You can view it on your schedule, at your pace. After you have completed both the viewing and review time of a module, your **Account Summary** (Figure 11) will indicate **Time Expired** for that particular module. It is rare for participants to use all of the optional review time, however, if you need additional instruction on a particular topic, we can reset the module(s).

To have your module reset, email:
techsupport@pegasuslectures.com.

Details	Module Length	Remaining Time	Last Viewed	CME
Module 1: anatomy and history	24 min	0 hrs 28 min	Jul 8 9:52 PM	View CME
Module 2: physiologic testing	1 hrs 4 min	1 hrs 21 min	Jul 8 8:34 PM	View CME
Module 3: duplex and draft imaging	1 hrs 11 min	1 hrs 53 min	Jul 8 7:08 PM	View CME
Module 4: aortic and endografts	24 min	0 hrs 41 min	Jul 8 8:19 PM	CME not yet available
Module 5: hemodynamic	46 min	1 hrs 19 min	-	CME not yet available
Module 6: venous	10 min	0 hrs 10 min	-	CME not yet available
Module 7: hepatic portal	18 min	0 hrs 18 min	-	CME not yet available

Figure 11 – Account Summary

Important: Pegasus Lectures reserves the right to not reset modules if the eCourse is being accessed by multiple IP addresses or there are excessive reset requests, indicating multiple users are accessing the course.

CME CENTER

The CME Center is accessible from the My Pegasus home page (Figure 12) and serves to centralize all of your CME quizzes and certificates. Issued certificates are listed by date. Clicking on **Access CME Quizzes** (Figure 13) will take you to a listing of all of your purchased modules with the CME status of each activity (Figure 14).

Figure 12

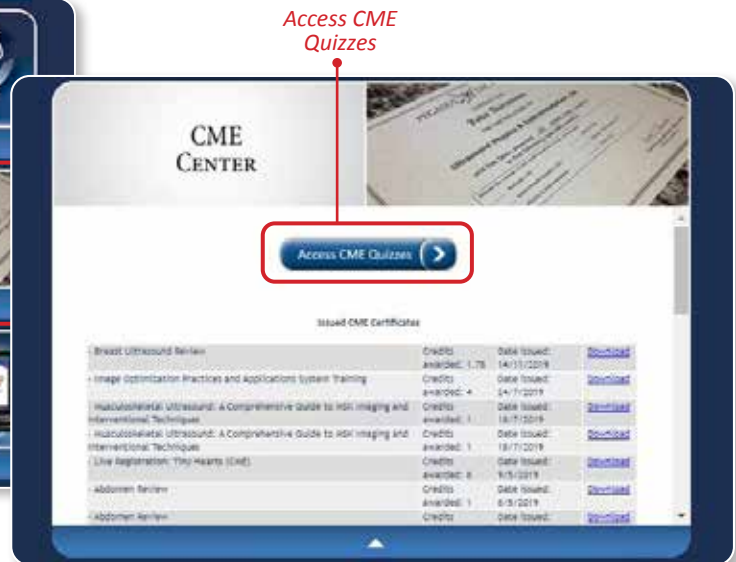

Figure 13

Once a module is viewed in its entirety, the CME link becomes active with the prompt 'Start CME Quiz'. The number of quiz attempts and your highest score are recorded. The Credits column indicates the number of eligible credits per module. Once you have successfully completed the CME quiz, the 'Select' prompt becomes active.

If you wish to have one certificate for the entire set of modules, wait until all of the "select" buttons are active and then click 'Process selected CME' only once (Figure 14). If you wish to obtain an individual certificate per module (not recommended unless you only are processing a few modules), you can select the desired module(s) and then click on 'Process selected CME'.

Name	CME Status	Attempts	High Score	Credits	Certificate
Stats, Cardiac Cycle, etc.	CME quiz completed	1	100	0.75	<input checked="" type="checkbox"/> select
Assessment of Function	CME quiz completed	2	100	0.75	<input checked="" type="checkbox"/> select
Embryology & Fetal Circ.	CME quiz completed	1	90	0.75	<input checked="" type="checkbox"/> select
Hemodynamics	CME quiz completed	4	100	0.5	<input checked="" type="checkbox"/> select
Congenital Shunts (Part 1)	CME quiz completed	1	80	1	<input checked="" type="checkbox"/> select

TECHNICAL TIPS

For optimal viewing, we recommend that you:

1. Make certain that you have high speed internet connection. Dial up connections and some wireless connections may be too slow to stream video smoothly, creating an interrupted presentation. If the bandwidth of your internet connection is too low to stream video (jerkiness or stuttering of the video), contact your internet provider to verify that you have adequate download speeds to watch streaming video.
2. Close all other internet applications.
3. Close other programs, especially any programs that may tax your computer's resources.
4. Use a headset for optimal audio quality.
5. Set the screen resolution to larger than 1024 x 768. If you cannot set the screen size to larger than 1024 x 768, part of the player may not appear on screen, in which case you can use the "full screen" mode so that the videos are sized appropriately. Note that if you use the "full screen" setting and your monitor setting is too large, the video may begin to appear pixilated.

STUDY AIDS

Pegasus offers several types of educational products designed to complement the online eCourses and live seminars. In particular, our ExamSim programs assess your level of exam preparedness through a patented **Intelligent Analysis Technology**. These patented programs analyze your specific areas of weakness, evaluate your test-taking habits, pinpoint questions types that you get wrong and give you a detailed report by topic and categories.

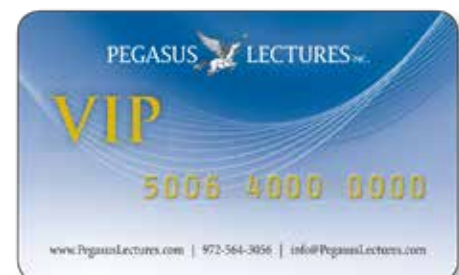

Figure 15 – Sample of products offered by Pegasus Lectures, Inc.

If you would like to talk to a registered sonographer to determine which study aids fit your specific learning style, please contact **Carol Gannon RN, RVT, RDCS, FSVU** at 972.564.3056 Ext 205 or by email at cgannon@pegasuslectures.com.

VIP PROGRAM

Enjoy the VIP treatment! We thank you for your business and want you to know that we value you as our customer.

Upon registering for a complete Pegasus eCourse, you are automatically enrolled in the Pegasus VIP Program. Your VIP number is unique and will be issued after seminar payment is received. As a Pegasus VIP you will receive significant discounts on Pegasus products (6% - 42% savings).

Visit our website at www.PegasusLectures.com for details of VIP savings.
